

Terms of Reference and Membership of the Inter-departmental Working Group on Using Hydrogen as Fuel

Terms of Reference

1. To identify potential local uses of hydrogen as fuel with a view to assisting Hong Kong to achieve carbon neutrality before 2050;
2. To coordinate efforts made by bureaux/departments (“B/Ds”) with regard to preparation and adoption of hydrogen as fuel locally;
3. To advise B/Ds on the development and continuous enhancement of best practices, guidelines, codes, standards and regulations for safe and efficient use of hydrogen as fuel, as well as related matters;
4. To advise on the pathway for wider application and commercialisation of various hydrogen projects;
5. To provide support for local infrastructure developments and capacity building for hydrogen applications;
6. To assist in the promotion of the popularisation of hydrogen applications; and
7. To regularly review the implementation progress of the Strategy of Hydrogen Development in Hong Kong and make updates.
